The scare on account of the threatened injury to wheat by the oat louse has subsided. Farmers who thought their fields would be ruined now find that in most cases the injury will amount to nothing.

The Midland Elevator company is out with a circular urging the farmers to stack their wheat, claiming that wheat properly stacked is more merchantable when threshed than it is when threshed immediately after cutting. It was understood that a committee had been appointed from each Sunday school of the city, to meet the Macon excursionists at the depot and escort them to the grounds. Criticisms because of the seeming negligence of the committees were not very complimentary, but quite amusing.

When constable Everhart went down to arrest her, Thursday morning, she drew a revolver and compelled him to leave the house. He returned in a short time, but she met him in the yard and fired one shot at him. He sent to town for assistance, but before it arrived the woman concluded to accompany him to Kirksville. She was taken before justice Richey on the charge of disturbing the peace. Her husband came to town soon after, and failing to procure bond for his wife, she was sent to jail to await preliminary trial. Davis and his wife are strangers in the county and said to be without property.
